## ASSOCIATED PRESS TELEGRAMS.

*HAVAS AGENCY*

Paris, 20th (evening).

The Ministers of Commerce and Agriculture not having been re-elected Deputies in the late elections were obliged to present their resignation.

London, 20th (evening).

Instructions have been sent to the Viceroy of India referring to the ultimatum to be sent to the King of Burmah.

Paris, 21st.

A Ministerial decree of this date convokes the Chamber of Deputies for the 10th November to extraordinary sessions.

Brussels, 21st.

The condition of Princess Charlotte, widow of Emperor Maximilian, is very critical. Serious fears are entertained.

## PRESS TELEGRAMS.

Constantinople 19th—The Porte has resolved to apply to the Powers for a more pronounced support in favor of the observance of the Berlin Treaty.

Vienna 19th—It is stated that in view of the peaceable attitude of Bulgaria, Servia is disarming the greater part of the army.

Sophia 20th—Diplomatic relations between Bulgaria and Servia are strained. The fact that King Milan refused to receive Minister Grekopo, sent on a special mission by Prince Alexander, leads to the belief that the Servian forces will probably invade Bulgaria. Great excitement prevails in Bulgaria in consequence of the warlike attitude of Servia. A Cabinet Council has been held to discuss the situation. The people are decided to retaliate any violation of the frontier.

London 19th—Lord Randolph Churchill, Secretary of State for India, has acceded to the request to make a non-political investigation of Indian affairs.

Dublin 20th—Parnell of New York, brother to the leader of the Irish party, has been summoned before the Armagh Courts for not having paid his rent for 7 years.

In Limerick six tenants have been fined for inciting their companions to revolt.

Berlin 20th—Prince Albrecht of Prussia has been named regent of the Brunswick Duchy.

Washington 20th—Minister Bayard, in an interview with a reporter, stated that the only pending treaty with Mexico is the Recoprocity Treaty which has yet to pass through the Chamber of Deputies. "Our relations with Mexico," he remarked, "could not be more cordial and friendly. The belief that our commercial relations should be more intimate is gaining ground and the Mexicans are convinced that this treaty will redound to their own advantage and benefit."

Habana, 20th—King Alfonso has granted a free pardon to the insurgents Varona, Gulsma, and Sumaguera.

Rosario, 21st—The papers to-day announce the separation of 91 members from the Liberal Club, without any apparent cause.

The recent storms have caused great damages at the Esperanza Colonies.

Last night the project for the construction of sewers in this city was read at the Municipality.

Montevideo, 21st—The *Situacion*, commenting on the disclosures made by Engineer Meliton Gonzalez, states that Government has full confidence in its representatives, who have been entrusted with the negotiation of the Port scheme.

The Official Organ bitterly complains of the protection extended by the Argentine Republic to Oriental emigrants, many of whom are conspirators.

The Official Organ attacks Don Meliton Gonzalez, and states his articles are 'una canallada.'

Dr Leandro Alem has been much visited since his arrival.

The announcement of the death of Dr Stagano is contradicted.

Doctor Real has been appointed Juez Correccional.

## THE UNIFIED LOANS.

The public is so familiar with all that concerns the Pellegrini loan business, that the short summary of the debate in the Deputies' chamber at foot will be amply sufficient on this threadbare subject. After the most tedious delays etc., the bill for the unification of the various pending Arg. loans has been passed, and from the tenor of yesterday's telegram in the *Nacion* it is quite evident that in January, if nothing unforseen occurs, the unified loan will be launched on the London market.

The Nat. Government will probably arrange for an advrnce of 1½ millions sterling pending the negotiation of the loan, which will be more than enough to meet all the Government requirements at present, and there is therefore every reasonable probability that for the next year or so the Government will have a superabundant supply of money. More still the Gonzales railway bill having been passed, the Nat. Government will not henceforward have to make any disbursements for the continuation of its railway works.

Although the debate was held with closed doors, as usual the whole town knew all about it yesterday. Dr Pellegrini, the political Cid of the day, was there to fight the battle of the Finance Minister and his own too. The opposition, a band of ten, struggled manfully against the current, and drew vivid pictures of the state of the finances next year, with produce so low in Europe, exchange at the dogs, and Government spending millions that the country cannot afford. It was all of no use. The majority passed the Bill by 50 votes against those of Messrs. Lainez, Ocampo, Argento, Puebla, Demaria, Portela, Navarro Viola, Paz (E. N.), Darquier y Araujo.

The following is a precis of the debate:—

Minister of War: I think that the moment is suited for some explanations respecting the loan negotiations, in order that the House may form a correct idea of this important business.

Congress voted three loans; for the Riachuelo works, City Improvement works, and railways; and the Executive in the meantime raised money in the market for the continuation of the works already authorized and begun. The moment, however, arrived when the Executive could no longer apply to the Banks for money without incurring certain risks, and then it was that I was sent on my financial mission to Europe. On my arrival I found myself in a most perplexing situation; the French Syndicate who took over 4,000,000 of the 12,000,000 loan for the Riachuelo and City Improvement Works could not place the money in the market. Messrs Morgan, who took over 10,000,000 of the 30,000,000 loan launched them on the market but only succeeded in placing £300,000. Certain feelings of animosity existed also between the two Syndicates; and this circumstance was a serious obstacle to the progress of the negotiations. In the meantime Government could not dispose of its bonds in consequence of the already existing contracts, so that it was placed in the impossibility of raising money by the use of its credit. In the midst of these embarrassing circumstances I tried to reconcile the Syndicates and secure also Messrs Baring which I succeeded in doing, and to this end it was necessary to unify the three loans. In this manner a powerful syndicate was organized; in fact a more powerful one has never been formed in Europe. The contract was then signed under the existing circumstances, and the Senate threw it out. Being apprised of the decision of the Senate, I made known to the Syndicate that all negotiations were at an end.

The Syndicate informed me that they did not consider the reasons for the throwing out of the loan as substantial, and were surprised that negotiations of such importance should be abruptly abandoned on the strength of such motives. Nevertheless, they were willing to sign a new contract, submitted to the previous consideration and approval of Congress. In the event of the Argentine Government being authorized by Congress to take such a step, they were willing to resume the negotiations without attaching any importance to the clauses alluded to, which could always be made acceptable.

These are the conditions on which the negotiations are at present placed.

The 1870 loan (in reply to Deputy Mansilla) has likewise a special guarantee. The 1881 loan of the Province of Buenos Ayres is guaranteed by the stamped paper, the income tax, and the public lands. The guarantee asked by the Syndicate in the present case seems to have taken everybody by surprise, as something entirely new, and an insult levelled at the honor and dignity of the country. The Ensenada Port loan has also a special guarantee. I do not think that this clause is a stain on the national dignity; it is a necessity which will facilitate the negotiation of the loan and remove all scruples on the part of the English capitalists.

Deputy Paz—I do not think that this clause affecting our Custom House returns is any reason for opposition. I shall vote against the loan because it is unconstitutional and because I do not believe the realization of the loan will in any way ameliorate the financial situation of the country.

On the conclusion of Deputy Paz's remarks the Chamber adjourned to "cuarto intermedio."

The Deputies having resumed their seats, a discussion arose between the Minister of War and Deputies Mansilla, Funez, and Paz, which resulted in further explanations with reference to the negotiation of the load.

After a short speech from Deputy Davila, the project was put to the vote and resulted in its approval "en general."

The Chamber then adjourned, it being 7 o'clock in the evening, and the deputies resumed their seats towards 9 p.m.

Article 1 was then read, a long debate ensuing. Deputy Paz proposed a minimum rate for the placing of the bonds, which suggestion met with the opposition of the Minister, who declared it impracticable.

Deputy Mansilla stated that the House should pass a law in virtue of which the Executive might attain its great aim—to procure money. He observed that the bankers were highly interested in the unification of the debt.

The Minister opposed this suggestion of a Home Loan, on the grounds that there was not sufficient money in the country for such operations.

A lengthy discussion followed which resulted in the approval of Articles 1 and 2 by a large majority.

Article 3 being declared open to discussion, Deputy Davila moved that this article be sub-divided as he could not vote in favour of the clause affecting our Custom House returns. He alluded to the upright and honourable conduct which has always characterized the Argentine Republic, especially when public debts were concerned. He appealed to the patriotism of the House. He considered it a great victory for the Argentine Republic that the respectable and respected house of Messrs. Baring should have lent a willing ear to our tales of woe, for he considered Messrs. Baring as the great friends of this part of the American Continent and especially of the Argentine Republic. He believed that the country had committed a serious error in declining the services of Messrs. Baring (murmurs of approbation.)

The Minister of War, in reply, stated that the clause in question should not be suppressed, as it was necessary to facilitate the negotiation of the loan.

Deputy Posse was in favor of the clause, and said that there was no question of patriotism but of money.

Deputy Mansilla considered these special obligations as most dangerous. He alluded to the results of these guarantees with reference to Egypt, which unfortunate country has fallen into the hands of the Financial Centre of the European Powers, as a guarantee for the payment of debts. He would vote against the clause that was pregnant with dangers, which, although remote, were not the less dangerous.

The clause was then put to the vote and was approved by 40 votes against 13. The other articles were subsequently approved by sweeping majorities. The project thus resulted sanctioned both "en general" and "en particular."

Art. 1—The Executive is hereby authorised to issue 42,000,000 dollars in foreign Debt Bonds bearing 5 per cent interest and 1 per cent yearly accumulative amortization by drawings at par. The nation reserves the right to increase the sinking fund.

Art. 2—These Bonds shall be issued abroad, in pounds sterling or francs, and may be issued in series.

Art. 3—The service of these Bonds shall be met out of the General Revenue, and, so far as necessary, the Customs receipts shall be specially affected to this yearly service. The Executive is authorised to contract with the National Bank for the service of the loan.

Art. 4—When the authorization conferred by this present Act is availed of Articles 1, 2, and 5 of the Act of 25th October 1883, and Articles 1, 3, and 4 of the Act of 20th June 1884 shall thereby be annulled.

Art. 5—The Executive is authorised to cancel the issues of Foreign Debt effected under the Acts mentioned, and withdraw them with the funds acquired by loan under this present Act. The surplus of said funds shall be applied for the purposes set forth in the Acts of 28th October 1881 (Riachuelo Works $4,133,345) 14th January 1882 (City Improvements, $8,000 000) 25th October 1883 (Public Works, $30,000,000) and 20th June 1884 (Payment of Independence and Brazil warriors) in the relative proportions.

Art. 6—The Executive is authorised to frame regulations for the emission and service of this loan.

Art. 7—The cost of carrying out this present Act shall be charged in the service of the loan.

Art. 8—Let it be communicated.

## FROM OUR BROTHER-EDITOR.

London, September 22nd.

Mr. Gladstone's manifesto has fallen flat, and although issued last Saturday is utterly forgotten, doubtless because it contained nothing worth remembering. To add to its pompous character it was divided into twenty sections, but he might have said all he wanted to convey in twenty lines. If we are to judge a man's mind by his writings the ex Premier is played out and would do well to retire into private life. Meantime Mr. Chamberlain is "stumping" Scotland, and is generally recognized as the coming Premier. The opinion of three-fourths of the public seems to be that the new franchise will produce a Democratic Parliament. In such an event, the new Land system will be the great feature, and is shadowed out in this manner:—

1st. Each parish or county to have power to expropciate land for the purpose of granting small holdings, say one to two acres, to peasants, at low rents.

2nd. Rates to be levied from all property holders or tenants to meet such expenses of expropriation.

3rd. The land owners in this manner to have to pay the bulk of the rates levied for taking the land from them.

Now, as the ratio of agricultural population is declining in every part of Europe, and especially in Great Britain, because machinery is profitably taking the place of hand-labor, the new land system will be an error, for three reasons: Firstly, because if agriculture will not pay with large holdings, it is idle to suppose those two acre lots can be any improvement. Secondly, because the rural working classes are comfortable, well paid and well housed, whereas we have 250,000 proletaires living in London in a worse condition, as Professor Huxley says, than Hottentots. Thirdly, because unless the new peasant-holding rate be strictly limited it will prove a medium of confiscation. When the School Board was created 15 years ago, it was repeatedly promised in Parliament that the rate should never in any case exceed 4 pence in the £, say 2 per cent. on the rental valuation of our houses. Mr. Chamberlain admitted last Saturday that he was sorry to find in some instances it reached 6 shillings, or 30 per cent., which, I need not say, is something awful. However, 15 or 18 pence, that is 8 or 9 per cent. on rental, is quite common, and if other taxes rose in proportion we should find the aggregate soon exceeded the rent one pays for his house. In this street (Albion-street) the school-rate averages £7 per house. Pianos at 100 guineas, carpets at high figures, drawing-masters at £300 a-year for pauper children who have had no breakfast; these are some of the absurdities that a tyrannical school board leads to. But if you give a parish vestry the right to levy rates to buy up the landlords, where will they stop?

The reform that we want urgently is, to provide suitable dwellings for the operatives in large towns, who are huddled together like animals, weighed down by exorbitant rents; we cannot wonder at drunkenness, immorality and degradation from the way in which they live, sometimes five or six grown up people in one room.

The plan which I proposed two years ago in the *Contemporary Review*, for the Municipality, to construct 200 Peabody Buildings, and rent the rooms at one shilling a week, subject to supervision against overcrowding, is as simple and feasible as the building of a hospital. A rate of one penny in the £ on the rental valuation of London, would cover amply the whole outlay.

'Our own correspondent' will send you all the political news, including the annexation of Eastern Roumelia by the Hospodar of Bulgaria, Prince Alexander, whose brother (Prince Battenberg) recently married our Princess Beatrice. It is supposed the Sultan will submit to this revival of the Treaty of San Stefano, which tears in pieces the Berlin Treaty, but the *Times* thinks otherwise.

The last rail of the Canadian Pacific line is to be spiked by Lord Lansdowne next month, but the line will not be opened to traffic till spring. It is mentioned that wheat 600 miles west of Winnipeg, has just been shipped in Lake Superior for England, as well as a cargo of barrels of flour from Winnipeg for Leith, Scotland.

Mr. Cernuschi, the great bi-metallist, publishes a letter in to-day's *Times*, in which he says the United States must repeal the Bland silver law, This is a confession from so high an authority, the only bi-metallist of any note.

Very Rev. Father Fidelis, the esteemed ex-superior of the Passionists in your city, arrived in London yesterday, and I hope to have the pleasure of seeing him before he leaves.

M. G. M.

## THE NEW AMERICAN MINISTER.

Although there is not much in President Roca's letter to his brother President, Mr. Cleveland, of the United States, still we give the note 'pro forma,' and regret that General Roca did not intrude a remark or two about the monstrous duties in the States on River Plate wools, and which people in both countries hope to see abolished. Possibly it would be a breach of diplomatic etiquette to advert to such matters in an autograph letter purely diplomatic and official, but let us all hope that the subject will not be lost sight of, and we remind General Roca that if his great and good friend President Cleveland uses his influence, the democrats are now in full power and the tariff law can be reformed. River Plate wools should enter the States as freely, as American pine, and agricultural implements enter here. The Americans might have ten times their present trade with this country, if they only went the right way about it, but so desirable a result needs something more than high security, distinguished consideration, and mere autograph letters. To complete, however, the chapter on the change of American Ministers near the Argentine Republic, we give the letter:—

Julius A. Roca,
Constitutional President of the Argentine Republic,
To
H.E. The President of the United States of America.

Great and good friend,

It affords me the highest satisfaction to acknowledge the receipt of your autograph letter, dated 20 June last, informing me that Mr. Bayless W. Hanna has been named Resident Minister and Consul General of the United States of America near this Government.

In reply I have the honor to inform Y.E., that Mr. Bayless W. Hanna was on 15 inst recognized in that character, and it will afford me the greatest pleasure to facilitate in every way the said gentlemen in the discharge of his elevated duties, in order to draw more tightly the bonds of sincere friendship which happily exist between the two countries.

Offering up to Heaven the most fervent prayers for the increased aggrandizement of the United States of America, and for your own personal felicity, it affords me great pleasure to offer you the assurances of my high and distinguished consideration.

Given in Buenos Ayres, Capital of the Argentine Republic, this 16th of October 1885.

Signed.

JULIO A. ROCA.

## CUSTOMS DEPOSITS IN LA PLATA.

The following important measure has just been passed by Congress; it will much interest our mercantile readers:—

Art. 1st—The Executive is hereby authorized to contract with Sr. Don Gregorio Torres for the construction and working of the Custom House deposits in La Plata, the concessionaire being always obliged to erect the deposits necessary for the movement of the port.

Art. 2nd—The concessionaire shall submit to the consideration of the Executive the plans, estimates etc. of the buildings in question.

Art. 3rd—The concession shall be valid for 15 years, after which time the Executive shall be at liberty to expropriate the works by payment of 10 o/o over the value, as set down by arbitrators to be named by the Executive and the concessionaire.

Art. 4th—The empresario shall be entitled to the rights of "almacenaje" and "eslingaje" as determined by the nation.

Art. 5th—Let this be published etc.

*F. Mendoza*
*Absalon Rojas.*

The following is the accompanying message of the Executive:

To the Hon. Congress of the Nation.

The Executive has the honor of submitting to your approval the above project, in virtue of which a contract would be signed with Sr. Don Gregorio Torres for the construction of Custom House deposits at La Plata. The Executive has come to the conclusion that, in works of this nature, it is really advantageous for the country to employ private companies; as it must be remembered that in this manner the Treasury is not endangered by an additional burden, and at the same time the constructions of these deposits will greatly aid and stimulate the commercial movement of La Plata.

For these considerations the Executive advises you to accept and approve the project in question.

JULIO A. ROCA
*W. Pacheco*

Senator Mendoza—The Committee of Hacienda have examined, studied and discussed the proposal of Sr Don Gregorio Torres. The Committee have spared no pains, no trouble, in the accomplishment of this task.

We know that at the present moment at La Plata a port is being built which will shortly be finished. The necessity, therefore, arises of building Custom House deposits to meet the requirements of trade. Mr Torres has presented his project applying for a privilege of 20 years; as it is a question of privileges the Executive has been obliged to submit the project to our consideration and approval. The Committee at first were not in favor of the project, as the benefit of a work of this nature, essentially advantageous to the public, would contribute to swell the profits of the pockets of a private company. This argument, however, soon disappeared and the Committee called on Mr Torres, from whom they obtained all the information and particulars required with reference to his project. Subsequently we asked Mr Torres for the estimates which he said, would entail an outlay of $230,000 m/n. The plans of the works have been remitted to the Secretary.

After some difficulties with Mr Torres, in consequence of a stipulation that the Executive could expropriate the works after 20 years paying 20 o/o over the total cost, we arranged that a considerable reduction should be made in these figures. Instead of 20 years, we agreed that 15 years should be the term; instead of 20 o/o, we arranged that it should only be 10 o/o.

The project stands on its own merits, and I shall not enter into any further considerations. Nevertheless, if during the course of the debate, any one of my hon. colleagues should require some data, I shall be happy to supply them."

The debate, which ensued, was long, Senators Davila, Cello, Febre and Mendoza making powerful speeches. A motion was subsequently made to postpone the debate of the project until next year's session, This motion, however, met with a strong opposition and after a brief discussion was thrown out.

The debate on the project was then resumed; 1st Art. was passed nem con. The other articles were approved and the whole project was finally sanctioned, no amendment being made.

## DR. VICTORINO DE LA PLAZA INTERVIEWED.

This distinguished Argentine, so well known and esteemed in this country, as Finance Minister of the Argentine Republic, a position he has recently resigned, arrived in London at the end of last week, and we were favoured by him with an interview at the Hotel Continental on Tuesday morning. His Excellency, we are pleased to record, was in the best of health and spirits, and welcomed us with characteristic urbanity. We have frequently had the privilege of enjoying Dr. Plaza's hospitality at Buenos Ayres, and our conversation, after the usual salutations, was for some time confined to inquiries regarding mutual friends and to references to incidents of private interest.

This, we may state, is his Excellency's first visit to Europe. Naturally desirous of knowing the impressions he had thus far formed with respect to the Old World, we ventured to ask a few questions, to which the Doctor replied with perfect frankness.

"The more I see of Europe," he observed, "the better I like it. It seems to improve as I advance. I first planted my foot on European soil at Lisbon, and must admit that it is a fine city, with beautiful surroundings, but it did not appear to me equal to Bordeaux, where I also landed, in the elements of progress, culture, and prosperity. As for Paris, it is very grand and brilliant. It even exceeded my expectations."

We ventured to hazard an opinion that, having seen Paris—the gay capital of the fashionable world—his Excellency would find London intolerable. His answer was an agreeable surprise.

"Not so," he remarked. Paris is doubtless more attractive to many, but I believe that I would soon grow weary of its ceaseless round of pleasures. Now that I have seen London, I admire it; it is just the place for me. I feel more in my element in the 'City' than anywhere else."

Our readers will kindly understand that we did not fail to fittingly acknowledge this expression of preference, so gratifying to us as dwellers on the banks of the Thames.

"You may have heard," continued Dr. Plaza, with a smile, "that I have a reputation for being very English in my tastes and ideas, but until I reached this country I had no conception with what truth. I am delighted to discover that England more than equals my most sanguine anticipations, and I hope to be able to make a lengthened stay amongst you."

In return, we assured him that he might confidently count on obtaining the most appreciative consideration from the English people, so largely interested in the development of the Argentine State, and who, by the investment of capital, had done so much to place it in its present advanced position. His Excellency freely conceded that British funds and credit had undoubtedly been of immense service in promoting Argentine progress. This naturally led us to discuss the financial condition of the Confederation. We asked for the Doctor's opinion of the Pellegrini contract and the action of his Government in refusing to ratify the arrangement. He favoured us with a very candid exposition of his views. We were not surprised to hear that Dr. de la Plaza entirely endorsed the course adopted by the Argentine Government in rejecting the onerous demands of the banking syndicate. He did not speak out of any sense of wounded national dignity. In arriving at a conclusion in relation to the negotiations as a matter of business, he was careful to dismiss from his mind any considerations of mere sentiment. The truth was that the obligations of the contract in question were simply preposterous, and, in his opinion, ought not to have been accepted by the special envoy of the Government.

Referring to his own retirement from the Government Dr. Plaza said:—

"I resigned on the question of forced currency, recourse to which I did not think was rendered inevitable by the situation of the Republic. I was willing, however, to consent to forced currency on condition that the Government agreed to my proposal to impose a tax of 4 per cent. on the emission of the banks. As it was for the benefit of the banks that specie payments were suspended, I deemed it only right those institutions should make some corresponding return to the national exchequer. Had my colleagues adopted my proposal, and levied a tax of 4 per cent. on the authorised emission of the banks, they would have secured a revenue sufficient to meet the service of the external debts. The authorised emission is about 60,000,000 dols., and the tax would therefore have produced 2,400,000 dols. I notice that my successor, Dr. Pacheco, who was then President of the National Bank and one of the strongest opponents to my contention, now actually proposes to impose a tax of 1 per cent. on the emission of the banks, showing that he is coming round to my opinion. However, a tax of 1 per cent. is not sufficient, and half measures will only aggravate the situation."

After some further conversation on various points of interest as affecting the material and financial needs of the Republic, during which we obtained much valuable information, we took our respectful leave of his Excellency, who, we are proud to say, was good enough to speak in terms of gratifying commendation of our own efforts in behalf of the Argentine Republic and the other States of the great South American Continent. His Excellency, we may add, kindly promised to send us occasional contributions, and we need hardly assure our readers that these will always be valued most highly. In conclusion, we are able to deny a statement of *Money*, to the effect that Dr. Plaza's visit to this country has for its object the raising of a new loan.

## EXPRESS AGENCY.

To the Editor of the STANDARD.

Dear Sir,

You ask for information with regard to an order issued to me by the Prefect Maritime. This much I can tell you. Some of the Mole Changadores and Boatmen seeing that the Agency sorely interferes with their means of extortion and that the palmy days of old are numbered, have solicited the Maritime authories to prevent my agents going on board the 'vaporcitos' to arrange with passengers, so desiring it, the distribution of their baggage in town &c., and the authorities, without first obtaining information as to the working of the Agency and blinding themselves to the fact that I solely employ these same 'Changadores' and Boatmen of the Mole to do the Agency work, have issued an order that my Agents may not go on board any 'vaporcito;' where, hitherto, they have invariably gone by invitation of the agents of the various shipping companies.

From the first, the "Prefectura Maritima" have given a very half-hearted support to me; and at times, when there have been serious disturbances, they have either quietly absented themselves or else tacitly looked on without interfering, thus giving great encouragement to my opposers and rendering the work a thousand fold more inconvenient to passengers and laborious to me.

Even with all these discomforts, the way that passengers have patronised this Agency is a sufficient proof of what they think of it, as a means of escape from the sharks of the Mole.

The Agency boats will meet the "vaporcitos" as usual, and all passengers desiring it can be landed with their baggage by this means, and I can embark passengers and their luggage as heretofore.

I can only add that this reform here must come. The public will no longer endure the disgraceful scenes of wrangling and bargaining with the "changadores" as of old; and, although I may still meet with many difficulties, I will do my best to overcome them, and trust the time may not be far distant when the Agency may prove to be a useful institution in this city.

I remain, Sir,
Yours faithfully,
*F. Goddard.*

## EDITOR'S TABLE.

To-day the fine Lamport and Holt s.s Galileo leaves for Europe, taking the Belgian mails; she is a fast sailer and will probably take a heavy mail. We give her cargo in another column.

All town was talking yesterday about the loan law, which has at last passed both houses of Congress, and now is law. The strangest part of this business is that, notwithstanding the passing of this long pending law, gold instead of going down has gone up, which shows that the event was over speculated on. Too many people sold short calculating on the law being passed, and now they have to buy back, and there's the rub.

Our colleague, the *Telégrafo Maritimo* is responsible for the news of the sale of Dr. Stewart's estancia in Paraguay for 50,000 pats; President Santos, of Montevideo, purchaser. The dimensions of the estancia are not given, but the property must be very large for the price paid.

On Saturday a pic-nic party for the Talar de Pacheco leaves the Central Station. President Roca is the guest of the occasion. The Pacheco property is one of the most valuable around this city, and the mansion, which the lordly propietor has built, looks like a Normandy "chateau," one of the grandest houses in the whole country. A little farther on is the Alvear estancia, but we must say the house does not correspond with the dignity of the Lord Mayor; it has a regular shebang appearance. Mr. Alvear ought either to sell the place or build a proper house; no man in his senses would believe that such a melancholy slow tumble-down concern belongs to our much respected Lord Mayor.

We beg to call the attention of intending competitors for the untrained races at the Tigre on the 11th of November that a meeting will be held on the 29th inst at p.m. at the Scotch School to receive entries. See advertisement in another column.

Our colleague, *El Diario*, falls into a very grave error in stating that the London paper, which published an interview with Dr. Plaza, belongs to our brother editor, who has no more to do with the journal in quest on than Mr Lainez himself; nor should we condescend to correct our colleague in the matter, but for the very unfair manner in which the *Diario* treats Dr. Plaza, who is always an Argentine, always one of our most distinguished public men, and one who has lent his country the most valued services. Dr. Plaza has been well received in London, where men of high position know better how to appreciate his character than even his own countryman, the editor of the *Diario*. There is a certain want of chivalry in attacking a man when absent, and unable to defend himself, which, we are much surprised that the editor of the *Diario* would be guilty of. We publish in another column the interview in question from the South American journal, and see nothing very remarkable in the paper, since it is the custom in Europe no to interview all foreign notabilities. In fact, we regard it more a compliment than otherwise to Dr. Plaza, and the editor of the *Diario*, if he had a little more "mundo," would view the matter in the same light.

We recommend our friends to call at Dewey's and get the last number of the *Graphic*, which contains the particulars of the great cat hoax perpetrated in Dublin last month. A wag put the following notice in the Dublin papers:—Cats Immediate—A gentleman returning to Auckland Commissioned to import a number of cats, offers 2s. for grown cats and 1s. for kittens, to be brought in small baskets to Carlisle pier, Kingstown, between 6.30 and 7 o'clock p.m. Enquire for Mr. Weston. Over 150 people with cats answered the advertisement. No Mr. Weston was to be found and the illustrations in the *Graphic* depict the fearful scene that ensued.

A hotel-keeper at a station on the Central Pacific Railroad is said to call his guests to dinner by discharging one barrel of a double-barrelled gun. He reserves the other barrel to collect the dinner money with.

Things in the neighbourhood of the Balkans looked better yesterday. Bulgaria has knuckled down, and that little Servia will have to do the same. W. P.'s solution for the Eastern Question is the best yet proposed. He ought to be an E. E. and M. P.

The blessed Loan Bill is passed at last. The Deputies sat for seven hours over it on Tuesday, and did not get home till midnight. What will they think in Europe? Two months ago this loan was scouted by the public and the parliament. Now the latter takes it to its heart again, while the former have sore misgivings as to the future. No wonder Chile has better credit than her neighbours.

Mr B Otero was named on Wednesday as the new Director General of the Western Railway, R.m.i.t.r.p.

Prosecutions for rent beginning again in Ireland. This looks bad.

The *Prensa* agrees with us, and says the only hope for the country now is for the Executive to do what Congress has failed to do, viz, cut down the expenses by at least four or five millions. Our colleague considers the estimated Receipts quite illusory. So they are. The outrageous spending of the Government must, however, soon stop now, as the money won't hold out much longer. The loan is all spent already. What a legacy the unfortunate new President will inherit. We pity him, no matter whether his name be Pellegrini, Rocha, Irigoyen, Gorostiaga or Celman.

There was a nobody-hurt and damage-trifling fire in Calle Bolivar, yesterday morning in the small hours, next the *Nacional* office, which was for some time in danger. Some paper bag makers set fire to a wooden 'altillo.' There was the usual crowd of tattered vagabonds in the street, and the usual fuss and confusion among the 'Pompiers,' none of whom, however, managed to hurt themselves this time.

The Report of Public Works for 1884 is out; 222 pages. We refuse to even look at the cover, much less cut the leaves. All our present financial woes have been bred and fostered by these Public Works. The bare mention of the two words gives one a spasm in the pocket; not to be cured by the news that the Tucuman railway gave a nett 60,000 nats last month.

A brutal murder was committed in a lovely part of Calle Centro America on Monday night. Yesterday's papers were full of sensational details, but we see nothing but an ordinary murder in it. The victim was a woman, who led the reverse of a proper life, although she had an excellent husband, a 'changador,' whose life she rendered miserable. The corpse was found by a baker going his round in the morning. It was covered with stabs. The police, with their usual sagacity and fairness, have arrested the husband, whom all the neighbours loudly declared to be innocent.

There was some inquiry going on yesterday at the Capitania about the monstrous conduct of the Ayudantia (whatever that is) towards the Parcels Express Agency. One thing is most painfully clear, and that is, that all the "ias" from top to bottom are, either openly or covertly, in favour of the motley crew who do the boating and porterage at the Mole, and against the Agency. In well-regulated countries the authorities are generally on the side of reform.

A party of British promoters will start for the Interior in a day or two, to see about a railway from San Juan to Rioja, and an Agricultural Bank in the former province. This is most mellifluous news for the Interior.

Mr. Goodman—"There is nothing like charity, my poor man." Mr Poorman—"No more there is, sir." Mr. Goodman—"We should always help one another." Mr. Poorman—"Very true, sir. Will you kindly lend me a dollar?" Mr Goodman (hastily)—"You misunderstand me. I mean in a strictly spiritual purpose."—Philadelphia Call

The elopement of a "distinguida matrona" of Uruguay, Entre Rios, is announced. She has distinguished herself now, at all events. She left a young family behind her.

"The 21st of October 1805" All the British sailors in part drank to Nelson's memory yesterday. At least we hope they did.

How it Leaked out.— Miss Mary (Winnie's Governess)—"Take that nice cup of tea to your Papa. Winnie; and take him a spoon as well." Winnie—"I don't fink he'll want a spoon, dear, I heard him say he was spoons himself on you." (And shortly afterwards motherless Winnie's governess was her dear stepmamma.)

### Teaching-Staff

The Staff, which is now completed, consists of the following; and, as will be seen by the qualifications appended is, perhaps the best working staff to be found in any private school, Native or Foreign, in the Argentine Republic.

I—Rector, A Watson Hutton, M A, F.E.I.S. Master of Arts ("Honours" in Philosophy, Edinburgh University); Fellow of the Educational Institute of Scotland, First Prize Essayist (Educational Subjects) Edinburgh University, Session 1879-80; and, for more than eight years one of the Masters of George Watson' College, Edinburgh.

II—Lady-Superintendent, Mrs. Hutton, Government Certificated Teacher; 'Queen's Scholar' of the Normal Training College, Edinburgh; and for more than seven years Chief Lady-Teacher in George Watson's College, Edinburgh.

III—Spanish, French &c. Master, M. Edmund Reydams, "Gradué en Lettres," Brussels University.

IV—Elementary Mistress and General Assistant, Miss E C Waters, Government Certificated Teacher, for over eight years one of the Teachers in George Heriot's Out-door School Edinburgh; and lately in Viscountess Keith's School, Kincardine-on-Forth.

V—Music Teacher, Miss M A Russell, lately of the Ladies' College, Edinburgh, where for the last ten years she has been teaching the Piano and the Harmonium in co-operation with Professor F W Bridgman, the leading Music Master in Scotland.

VI—Drill Sergeant and Gymnastic Master, Mr Wm. G. Water, lately of the First Edinburgh Rifles, and Cowan's Gymnasium, Edinburgh.

Prospectuses with full particulars on application.

### EDITOR'S TABLE

*(Continued from 1st page)*

The Provincial Bank is going to change its whole note issue for a brand new one from New York. More useless extravagance. It's bred in the Argentine bone, and even bankruptcy would have no effect on it—unless, perhaps, to make it worse.

Steam to Chupat, for a subvention of 1,000 nats. a month, is proposed by Mr. E. Nuttall. It is about time to do away with the "cooters" and schooners that have hitherto carried on the trade of the colony.

Maxfield Bean was walking with a lady when a large hawk flew over their heads, "Hawks are perfect y dreadful," said she; "I'm afraid of them." "You needn't be," said the gallant Bean, "you're not a chicken."

All the city bath-houses are preparing for the summer campaign and promise no end of novelties and improvements to their perspiring customers. We wouldn't venture on a swim in the midst of such a greasy lot even for an enormous slice off the Pellegrini loan; but "de gustibus non est disputandum."

The Police Assessor says, and we heartily agree with him, that no punishment could be too severe for a miscreant (we'd lash him till he became hoarse bawling for mercy) who has been caught gouging out the eyes of canaries, that they might sing night and day, through not being able to tell the difference between the two. What a villain!

The cleaning up of the Recoleta Cemetery, which is so badly required, is, it appears, only a temporary measure for All Souls' Day, and means only a few cans of paint and cartloads of sand.

The Mendoza papers announce that the tramway in that city has collapsed from its first spurt and is going to the dogs. This is the well-known road taken, sooner or later, by all camp and provincial tramways.

The Rosario papers tell an oft-told tale. There is not a copper in the Municipal cash-box of that city. There never has been, so long as we have the pleasure of knowing Rosario, and that is a good many years.

There was a most laughable scene in Judge Arrotea's court on Tuesday in a case brought by a Spiritualist Frenchwoman, Madame Bouche, against her lord and master Massoo B, to make him disgorge a lot of her individual earning as a Spiritualist and magnetizer. When asked what he had to say for himself Bouche pursed up his mouth and declared loftily and loudly that the whole thing was a d—d lie. Madame Bouche at once fired up like a kerosene explosion, saying "Oh you mean, ugly, pitiful, little whippersnapper! You're the liar! Let me magnetize him Judge, and I'll soon get the truth out of the little villain." Poor Bouche, who had turned as pale as a boiled chicken when his wife proposed to magnetise him, slowly recovered his colour and laughed when the judge, trying hard to choke down his laughter, refused Madame the permission she asked. We should say that poor Bouche was made to laugh the wrong side of his mouth when he got home from the trial.

Mr Lista, the great explorer, has his book on Patagonia in the publishers, hands, and it will shortly be ready.

We're delighted to see that the Rentas Office has taken a proper view of the pretensions of the Industrial Club and recommends the Finance Minister not to dream of putting a tax on foreign paving stones, to favour the miserable Olavarria article.

A gang of Goths and Vandals in Rosario now devotes its energies to destroying the telephone and telegraph wires, and the police either can't or won't catch the scoundrels. Nice place Rosario!

We find the following in a Glasgow exchange received by the mail:—"Mrs Edwards, the aged proprietress of the Hand Hotel, Llangollen, died suddenly on Thursday. She was engaged in her usual duties yesterday, but was taken seriously ill during the night, and passed away this morning. Her sudden end came as a painful shock to the numerous visitors at the hotel. She was a celebrated Welsh beauty, and was the subject of the popular song, 'Maid of Llangollen,' by Brindley Richards. She was widely known and greatly esteemed."

The Corrientes Government is in serious legal trouble about land sold by it. Mr Lavalle is pushing his action at law against it, and the Federal Judge has embargoed some of its lands. Dozens of other actions involving the greatest charges against the present Corrientes Government are on the tapis.

The annual course of studies (?) at the Palermo Military School has closed, and the boys will now have a month's cramming for their examinations. What about the Naval School? There was, if our memory be not at fault, tremendous fun at last year's examinations in this costly establishment.

A man on Long Island attempted, a few days ago, to drive a nail into a can of nitroglycerine. Whether he succeeded or not will, unfortunately, for ever remain unknown.

The engineers are now busy at the Boca, making surveys for the grand sea wall that is to run from the Retiro to the Boca.

Eliza Mathilde—"Have you ever read any of Holme's works?" Charles Augustus—"O, yes; I have read Holmes's Sweet Home."

The business in which you know you could make money is generally the other man's.—Boston Post.

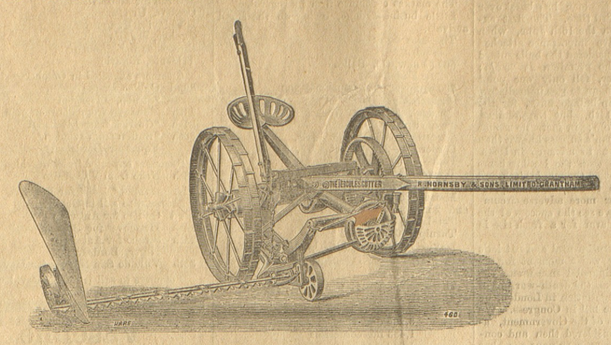
## HERCULES MOWER AND FERN CUTTER



his machine has been specially designed for the Colonies and other new countries, for cutting strong thistles, fern and light scrub on rough land, and has been most successful in Autralasia and South America. It has very high wheels and is of great strength combined with lightness in draught.

The cutting apparatus consists of 2 sets of knives, one set fixed to the Bar in place of the Fingers, and the other driven by the Crank plate and connecting Rod in the usual way.

The unanimous verdict of all who have worked this machine is that it is the

"Most useful and economical implement on the estancia."

**Important Notice.**

I hereby advise the public that I have established a Gymnasium Institute at Calle Florida 406 where I also apply the MASSAGE SYSTEM as studied and practiced at Dr. **KELLGREN'S** well known institute in London.

This system has given the most surprising results in curing chest and lung complaints, and all maladies caused by the kidneys and joints, and in any way connected with the nervous system. Thus the celebrated SYSTEM of MASSAGE is recommended as a certain cure for rheumatism, asthma, undeveloped muscles, paralysis, disorders in the digestion and in the circulation of the blood, etc., etc.

I have also a special class for the development of the body and muscles.

The following is the time-table I have arranged for the application of the Massage System:

For Gentlemen 8 a.m. to 10 a.m. and 3 p.m. to 5 p.m.

For Ladies 12½ to 2 p.m.

Consultation hours—11.30 a.m. to 12.30.

Patients can also make arrangements for the application of the Massage System at their own residences.

| Gold | 44.50 o/o prem. |
| Cedulas E | 81 |
| Cedulas F | 80½ |
| Cedulas G | 85½ |

The soap bubble of the loan has burst over the market for the third time. The first explosion took place on the 16th June, when such was the speculative importance attached to the news that all considered the bulls ruined and expected to see the premium at 25 o/o; the premium, however, fell only one point from 30 to 29, and began to rise immediately afterwards. The soap bubble burst for the second time on July 11th, but the premium held its ground at 30 o/o; in fact, no sooner was the news of the loan's success known than the gold market began to advance in leaps. Since then, we have seen the leading bears drop, one by one, out of the magic circle and the premium advance to 48 o/o. History repeats itself, but under more adverse circumstances, and to-day we see the success of the loan bill sound the alarm for a fresh rise in the gold market.

In a moment of sentimental and patriotic excitement the very worst moment for the execution of great financial measures, the Executive Power signed the death-warrant of the successful loan negotiation in London, by refusing to support the bill in Congress. We applauded the decision of the Government, as the whole market considered then and considers to-day the business a ruinous one, but since affairs have arrived at such a pass that both the Government and Congress are obliged to retrace their steps, all must acknowledge that the rejection of the first negotiation was a piece of folly. Had Congress sanctioned the bill in July, when gold stood at 30 o/o, it is more than probable the premium to-day would be under that quotation, and the market would not have reached the present stage of extraordinary firmness, brought on by the heavy shipments of gold for the last seven weeks. The members of Congress will, no doubt, wonder to see gold firm as a rock at 44½ o/o, in spite of their vote last night.

The firm tenor of the speculation, however, cannot last long. It must be necessarily short lived, as events are fast crowding together and combining to lift the market out of the fatal lethargy of the last six months. Exchange is rapidly advancing, wools are beginning to move off, and the loan will be an immense help to the National Treasury and to the Government. We are rushing into the busy season, and it would, indeed, be an unprecedented anomaly to see a bullish speculation thrive whilst the whole current of the country favors a fall in the premium. The scarcity of gold that is felt to such a great extent at the present moment may swing the market and favor the bulls up to the end of this month, but all probabilities point to a decline in November; at least, this is the opinion of the sweeping majority not only outside the speculative market but at the very ring.

Since the loan bill has been sanctioned, the success of the negotiation with the Syndicate may be accepted as a foregone conclusion. Both the Government and the Syndicate are anxious to conclude the business. The main feature of the affair is that the Treasury will be relieved of the present pressure, and it matters little for the moment when or where or how much of the loan will be placed, as long as the Executive Power receives the advances it needs. Many are of opinion that the gold of the loan will not come out to the R. Plate and that whatever advances are made, they will be kept in London to meet the service of the debt; but even this last extremity would prove an immense relief to the market, as the Government will not be obliged to enter the exchange market and to remit. Whilst all admit that a loan, in the present state of impaired credit of the country, cannot be a profitable business for the Government, it must be acknowledged that it tides over a situation.

Operations in gold for cash embraced $123,000; the market opened at 44 and closed firm at 44½. Forty thousand dollars were sold for Saturday at 44½ to 44.30. Four hundred thousand dollars were sold for the end of the month; rates opened at 43, rose to 43.80, and closed very firm at 43.70. Operations for the end of November amounted to $235 000; operations opened at 42 and closed with buyers at 42½. Forty thousand were sold for December at 41½ to 41.70. Over eight hundred thousand dollars were sold during official hours. The market opened at last night's closing rate, with a rising tendency, advanced a point all along the line and closed as firm as a rock. Immediately after the close of official hours there was a sudden spurt in affairs and buyers at 44 o/o for the end of the month put in an appearance. There are good buyers of gold for the end of November, but they are no longer so numerous as at the beginning of the month. The bears are selling pretty freely for the end of next month, speculating on the influence of the export season and of the loan.

The supply of the new Cedulas G was much larger than usual, but the stock, strange to say, resisted the fall and held hard a fraction under the old quotations with only a shade of weakness. Nearly two hundred thousand changed hands for cash at 85 to 85½. Over one hundred thousand were sold for the 30th at the same rates. Ten thousand were sold for November at 84½. Over twenty thousand Series E were sold at 81 for cash and at the same price on call up to the 30th. A few thousand F changed hands at 80½. National Bank Shares and Certificates are completely neglected; the stock is quite out of the market. Shareholders think that the Bank will pay a 15 o/o dividend this year; should their hopes be fulfilled, the stock will be quoted at 190 o/o premium next year. The old clique still holds on to the stock in the hopes of a revival of the burst-up speculation. This time last year the share speculation was in full swing; a great change has come over the market since then.

The exchange market shews the usual symptoms of firmness, but operations are few and far between. There are nearly no takers of gold exchange, owing to the great scarcity of specie. Rates are quoted at 47 to 47½d., and the tendency looks up. Takers in paper are becoming daily more numerous. The money market continues easy for paper, but very tight for gold. Government bills are quoted at 9 o/o.

On Sunday, 25th inst., Messrs. Tietjen and Co. will sell at auction the well-known granary San Lorenzo, situated at the port of that name, on the very river bank, and affording facilities to load and unload ocean steamers in 48 hours. The establishment is provided with cranes, anchors, and all appendages necessary to steamers and vessels anchoring at the place. The whole country around, in a radius of 15 leagues, is under linseed and wheat, and the locality deserves the reputation of being one of the best in the country. In another column we publish the advertisement with full particulars.

The following is a summary of operations effected this morning at the ring during official hours:—

There were about fifteen thousand arrobes of wool in the Once this morning and 5000 in the Constitucion market. Operations were few and business ruled very dull. Mr Casey sold 800 ar. from Mr James Kenny's estancia in Arrecifes at 83 m/c. A lot of 800 ar. from Pringles was rumored sold in the South plaza at 100 m/c. Affairs in both markets ruled flat.

Exchange this afternoon was quoted at 47 to 47¼d. If takers continue holding back, the rate will jump to 48d., and the probabilities point this way.

It is rumored on 'Change that the National Bank will resume its exchange transactions next month and begin drawing for a million sterling. The sanction of the loan bill gave rise to this report.

Advices from Pringles, in this province, report camps in bad condition and both sheep and cattle thin.

The Europa left to day. The Galileo will leave to-morrow, and the Petropolis is posted to leave on the 25th for Europe.

A property in Calle Viamonte, between Calles Uruguay and Parana, with a frontage of 14 yards by 70 deep, has been sold for $24,000.

The statements of a leading morning colleague, with regard to exchange operations of the National Government, are flatly contradicted.

The export of cereals from the port of San Lorenzo, for the nine months ending Sept 30th, were as follows:—

| | | |
|---|---|---|
| Wheat | 27,000 | tons. |
| Linseed | 2,402 | " |
| Maize | 1,127 | " |
| Peanuts | 256 | " |

Official value of above amounted to 1,239,603 m/n.

The Italian steamer Sirio arrived to-day, crowded with passengers and with 1200 Italian immigrants. They will land to-morrow.

The bulls put up the gold market during afternoon: At 5 p.m. the premium closed at 45½ for cash, 45 for the 30th, and 43½ for November, buyers. The following business was reported:

30,000$ for to-morrow at 45 to 45½.

300,000 for 30th at 44 to 45.

100,000 for Nov. at 43 to 43½.

The Galileo sails on 22nd inst. for Antwerp and London with the following cargo:—

"Stock, 102-110,000 hides of all R. Plate kinds.

"100 to 200 barrels of sugar have been exported for B. Ayres, during the fortnight."

From the *Otago Witness* we learn that the annual report and balance-sheet of the New Zealand Refrigerating Co. disclose a very satisfactory state of affairs. The net profit for the year amounts to £4,830 1's 10d, of which it is proposed to devote £1,800 to the payment of a 10 o/o dividend, to carry £1,000 to the reserve, and to return to shippers of sheep £1,584 18s 6d, being at the rate of 6d per sheep, and equal to a 5 o/o primage on freight paid during the year. The following extracts from the report will prove interesting: "The works at Burnside have been constantly occupied during the year, 77,370 carcases of sheep and lambs and 544 bullocks having been frozen, as against 72,420 carcases of sheep and lambs last year. At Oamaru there were slaughtered at the Company's works 39,875 sheep, the carcases of which were frozen on board the str. Eldersli. The total number of sheep exported from Otago since 30th June last is 164,879, of which 96,9 9 were shipped from Port Chalmers, and 67,910 from Oamaru. Looking at the magnitude of these figures, the directors felt themselves justified in acceding to the request of the Oamaru shareholders, expressed through the local board, that freezing machinery should be erected there in connection with the existing slaughtering establishment. They have purchased on favorable terms a 50,000 cubic feet per hour "Bell-Coleman" machine—to be driven by water-power—and hope to have the works completed within six months. The question of getting a reduction in freight and London charges has occupied the attention of the directors constantly. They are glad to be able to report that 3d per lb has been taken off the freight by the existing lines of steamers, and that a considerable reduction is apparent in the home charges. Negotiations are now in progress, which will, it is hoped, lead to a still further improvement in this respect."

The *Railway News* of Sept. 5th publishes some extracts in regard to the railways that centre in Chicago, U. States, from which it appears that their mileage is 27,682, more than enough to go around the world; locomotives number 5,838, passenger cars 2,618, baggage, mail and express cars 1,352, and all kind of fright cars 178,066. Chicago has centreing there 50 o/o more than the whole of mileage of the United Kingdom, nearly 11,000 miles more than France, 7,000 more than Germany, and 14,000 more than all Russia.

The London correspondent of the *Revista da Engenharia*, writing under date of the 4th ult., says that the Rio Grande do Sul Railway Co. is actively seeking capital for the construction of the line from Cacequy to Uruguayana. It seems that Messrs. Waring Brothers do not wish to build the road for the price fixed by the Government and the latter had given them to the 21st Sept. to signify their acceptance, or not. It is stated that Mr. Waring had agreed to give Mr. E de Mornay, contractor, besides the costs of construction, the sum of £10,000 to secure his services, and a further payment of £33,500 in cash and £20,000 in stock. As the line is to pass through an unsettled country, Cacequy being nothing more than a flag-staff on a river bank, these expenditures would seem rather high. Roads through new countries ought to be constructed on a much cheaper basis.
